Will Be Cured.

We are happy to place for the citizens of Cairo and its vicinity, Dr. Hulse, late of New Albany. He is permanently located in Illinois, for the purpose of practicing medicine in all its various branches, and will attend to all cases of disease, and especially to those of the heart, lungs, kidneys, &amp;c.

The Doctor has practiced medicine during a period of twenty years, during which time he has had a large share of practice wherever he has lived. His experience and skill in his medical office, however, has been very successful in the treatment of all chronic diseases, having devoted the greater portion of the past eight years to cases of consumption, and has obtained a decided and marked success. After taking their cases in charge he charges nothing for consultations at his office. He will not charge you what he tells you must pay him. In this case, all that you pay him, is charged to the doctor.

All old salts know that what their condition—sore eyes in all forms, cured in a short time. Frits and cankers cured without the use of the knife. Tapeworms exterminated by the use of a newly discovered medicine, without fail. All forms of erysipelas and diseases of the skin removed.

Dr. Hulse, in India, in 1853, discovered one white in the Cherokee nation in 1853. For sale at my office, or sent by express to any part of the country.

The doctor comes and charges in five minutes.

Hives in three minutes; earache in ten minutes; neuralgia five minutes; rheumatism in one hour; scrofula and syphilis in a short time.

These diseases are cured in a short time. Every bottle is labelled with full directions for using it. If it fails to do what is claimed for it, come back and get your money. Price 25 cents and \$1 per bottle.

Office, corner of Eighth street and Ohio Levee, upstairs.

I am a graduate of the Homoeopathic School of Cleveland, Ohio—having graduated in the year 1851. I also graduated in the Eclectic School of Cincinnati, in the year 1853.

THURSDAY EVENING  
June 30th, 1870.

The present week has, thus far, been the dullest we have experienced this year, and at present appearances indicate that we may not expect any material improvement during the remainder of the summer. The only business doing is confined to supplying the wants of a very moderate order demand, as shippers may be said to have, at present, retired from the field altogether. Receipts of all kinds of produce are correspondingly light, which prevents any accumulations, and are generally disposed of about as fast as they arrive. Prices of the different articles in our list have not varied materially. Flours are weaker, though not quite so low. Corn, oats and hay are all dull and lower, and in some cases receipts have been hard to place without storing.

**Tobacco.** The sales of tobacco to-day were extremely light. In the Planters' warehouse only twenty-six bags were sold, most of it being of low grade of Illinois tobacco.

SOUND ADVICE.

Make it your business, if you need clothing, to go to a reliable store, where you can find all you need, and made in the style you fancy, at such prices as to suit your purse and the times. Antoinette is just such a house. There you will always find a complete and select assortment of clothing, either for men, youths, boys or children, at prices as low as the lowest. Compare his goods and prices, it will be to your interest.

PHOTOGRAPHS! PHOTOGRAPHS!

Go to J. O. Bagwell, Photographer,

corner Eighth street, and Ohio Levee, for

pictures, Carte de Visite, etc.

Having made arrangements with some of the best

artists of our large cities, he respectfully

solicits orders for copying and enlarging

old pictures. Call at his rooms and see specimens of work in that line.

A MOST STRIKING CONTRAST.

The old hair dyes and "colorers," etc.

are all more or less sticky, muddy, and

fetid, and the hues they impart are not

natural. Phalon's Vitalia, or Salvation for the Hair, the newly discovered agent, is, on the other hand, limpid transparent, fragrant and effective, and has no sediment.

Sold by all druggists and fancy

goods dealers.

THE TRICHLINA SPHALUS OR PORK WORM

Perhaps it is not generally known that

the much talked of *trichina spiralis*, or

pork worm, was first discovered in Amer-

ica by Dr. R. C. Kendall, of Philadelphia

Pa., with that American instrument known

as the Craig Microscope, costing only

\$2 75, after repeated failures to discover

the worm with an imported microscope,

costing \$55, of feeble power and less re-

liable. This fact Dr. Kendall stands

to prove at any time. The "Craig"

Microscope in neat box with full direction

is mailed anywhere for \$2 75, by E. P.

Ross, 312 Locust St., St. Louis, Mo.
